

## Climate & Energy Scenario Analysis: Shedding Light On The “Black Box”

18 NOVEMBER 2019 | 15.45-18.30

AT THE OFFICE | RUE D'ARLON 80, 1040 BRUSSELS

### Programme

*Moderated by Karel Lannoo, CEO, CEPS*

**15.45** Registration and coffee

**16.00** Welcome by François Soulmagnon, Director General, AFEP  
Keynote speech by Mauro Petriccione, Director General, DG CLIMA

**16.10** Presentation of The Shift Project Report for AFEP “Climate & energy scenarios: evaluation and guidance”,  
By **Nicolas Boquet**, Environment-Energy Director, AFEP,  
and **Romain Grandjean**, project manager, *The Shift Project*

**16.30** Panel: *How to help companies build reliable, disclosable and usable scenarios?*

Based on the AFEP-The Shift Project Report’s conclusions, the panel discussion seeks to answer the following questions:

- Despite the limits of public scenarios, how can companies use them in their strategic thinking in a relevant way?
- Are companies able to build in-house scenarios? If so, how?
- How can financial actors use those scenarios to support companies willing to adapt to their disruptive business environment?

#### Speakers:

- **Alain Deckers**, Head of Unit Corporate reporting, audit and CRA, DG FISMA, European Commission
- **Rafael Ramirez**, Director of the Oxford Scenarios Programme and Professor of Practice, University of Oxford
- **Carey Evans**, Director, Global Public Policy, BlackRock
- **Alice Peyrard**, Director Climate Change Commitment at Veolia and member of EFRAG European Lab PTF on climate related reporting, member of the Steering Committee of the report

Q&A session

**17.40** Closing remarks by Karel Lannoo, CEO, CEPS

**17.45** Cocktail reception

**18.30** End of the event
